

All Around the World

Students will be learning about all different types of nature from around the world. They will discover life beyond the outside of their backyard!

➤ Materials:

- Computer or other device to do research on
- Random supplies around the house

➤ Directions:

- Student will pick a topic such as bugs/insects, plants, or animals and research how many different ones are around the world
- They will then create a picture or model with materials they can find around the house

- Some project ideas include:
 - Draw a picture
 - Paint a picture
 - Create a clay/playdoh model

- Answer the following questions:
 1. What is the name of your bugs/insects, plants, or animals?
 2. Where in the world does it live?
 3. How does it survive?
 4. What are some of its characteristics?
