

Toilet Paper Roll Car Projects

You will be learning how to use household items for projects, learning that you do not need a lot of items to be creative while learning to recycle and reuse household items. Use your imagination! What sort of cool features does your car have?

➤ Materials:

- Toilet paper tube
- Scissors
- Glue or Tape
- Paintbrush/Paint
- Cardboard
- Black marker or paint
- Trash bag
- Paper (white or lined)

➤ Directions:

- Set up your area for this project, use a trash bag to cover it.
- Take the tube and paint the entire thing the color of their choice, choose a solid color as the base
- Let the tube dry before continuing with adding other designs or colors
- Draw 4 circles on the cardboard for the wheels and cut them out
- Use a black marker or paint to color the outside of each circle black. Paint the inside white or use smaller circles cut out from the white paper to resemble the wheels
- Make a smaller circle for a steering wheel and cut it out
- Once everything is painted, you are now going to cut out a window. Fold the tube and cut a square out of the tube
- Glue the steering wheel to one side and attach the wheels to the car two on each side
- Clean-up your space
