

Hot Air Balloons Craft

Are you ready to go on an adventure to your favorite place or somewhere new in a hot air balloon? Let's get started using our creativity and imagination and build a hot air balloon and start our journey of fun!

➤ Materials:

- Paper plate
- Brown construction paper or brown crayon/marker and white paper
- String or yarn
- Crayons, markers, colored pencils, paint or any other materials to decorate your hot air balloon
- Scissors
- Tape or glue

➤ Directions:

- Decorate your paper plate with crayons, markers, colored pencils, paint or use magazine cutouts illustrating where you would like to travel to in your hot air balloon
- Use the construction paper to make a basket for people to stand in and you could also decorate it and add a small door. No brown construction paper? Draw your own basket on a white paper.
- Tape or glue 2 pieces of string/yarn to the back of the paper plate to make a handrail from the balloon to the basket. Tape or glue to the basket.
- Tape or glue 1 piece of string/yarn to the top of the hot air balloon so you can hang it up to fly.
- Optional, cut or draw a picture of you or of your family and tape or glue it inside the basket to fly to your destination!
